Nature is all around us!

We can feel the crunchy leaves and soft grass between our fingertips.
We can smell the clean air of the countryside as it fills our lungs.
We can see the sunlight through the tree of hidden faces.
The old tree is a helter-skelter for spiders.
We can hear the buzzing bees and the pretty songs of the birds in the tree.

Nature makes me feel everything,
All of the different feelings,
But I feel most calm, sat beneath this mighty tree.

Nature is all around me.

I can smell the sweetness of flowers,
I can see the trees swaying like balloons that someone has let go.
I can feel the soft grass on my fingertips
Nature is where I am at home.
